AXL ESPIRITU

Software Engineering Student | Full-Stack Software Developer

heyitsmeaxl@gmail.com | 0466587981 | Darwin, NT | https://github.com/eyeksel

PROFESSIONAL SUMMARY

Software development student at Charles Darwin University with hands-on experience in full-stack development, databases, REST APIs and cloud technologies. Skilled in C#, JavaScript, TypeScript, Python and SQL, with practical experience using React, Vue.js, Angular, ASP.NET Core, Entity Framework Core and SQL Server. Experienced in building and integrating frontend, backend and database applications, testing APIs, debugging technical issues and using Git/GitHub for source control. Familiar with cloud platforms and emerging technologies including Azure, AWS, Google Cloud, WebSockets, LLMs and RAG. Enjoys learning new technologies, solving technical problems and building practical software solutions, with a strong interest in continuing to develop professionally in software engineering. Eager to contribute these skills in a collaborative environment while gaining further experience in real-world software development projects.

ACADEMIC / PRACTICE PROJECTS

Full-Stack Task Manager

C# | ASP.NET Core | EF Core | SQL Server | React | Vue.js | Angular |

- Built a full-stack Task Manager with an ASP.NET Core REST API, Entity Framework Core and SQL Server. Developed React, Vue.js and Angular frontends using the same backend and implemented GET, POST, PUT and DELETE operations.
- Tested APIs with Postman and resolved integration issues involving CORS, frontend dependencies and Angular configuration.

Project link: View Github

C# & SQL Server Task Manager

C# | SQL Server | Microsoft.Data.SqlClient

- Built a console-based Task Manager with CRUD functionality connected directly to SQL Server. Used parameterised SQL commands, database connections and data readers before later developing the application into an ASP.NET Core/EF Core full-stack project.

Project link: View Github

ACADEMIC TRAINING & PRACTICALS

Programming & Web Development

- Completed tutorials and practicals covering JavaScript, TypeScript, React, Node.js, Python and REST APIs, building foundational programming, frontend and API development skills.

Javascript: View Tutorial | **TypeScript**: View Documentation | **React**: View Documentation | **Node.js**: View Tutorial | **Python**: View Tutorial | **REST API**: View Tutorial

Evidence: View Github

.NET & Database Development

- Completed practical training in C#, .NET, ASP.NET Core, Entity Framework Core, SQL and SQL Server, progressing from basic console applications and SQL exercises to database-connected full-stack applications.

C# & .NET: View Tutorial | **SQL**: View Tutorial | **ASP.NET Core**: View Tutorial | **EF Core**: View Tutorial

Evidence: View Github

Frontend Frameworks

- Developed Task Manager frontends using React, Vue.js and Angular, applying TypeScript, components, state/data binding, event handling and REST API communication.

React: View Tutorial | **Vue.JS**: View Tutorial | **Angular**: View Tutorial

Evidence: View Github

Cloud & Emerging Technologies

- Completed introductory learning and practical exploration of Microsoft Azure, AWS, Google Cloud, LLMs, Retrieval-Augmented Generation (RAG) and WebSockets.

AWS: View Course | **Google Cloud & Azure:** View Course | **LLM**: View Course | **RAG**: View Exercise | **WebSockets**: View Tutorial

Evidence: View Github

Web Graphics

- Explored browser-based graphics and interactive development using HTML5 Canvas and PixiJS.

HTML5 Canvas: View Tutorial | **PixiJS**: View Tutorial

Evidence: View Github

SKILLS

Technical Skills

P**roject Management & Collaboration Tools**: Jira, Confluence, Trello, Microsoft Planner
Diagramming Tools: Visio, Draw.io, Lucidchart
Microsoft 365: Microsoft 365, OneNote, Outlook, Teams, SharePoint, OneDrive, Excel, Microsoft Forms
Version Control: Git, GitHub, Bitbucket
Data & Reporting: Power BI
Development & Command-Line Tools: Notepad++, PowerShell, Batch Script

Professional Skills

Teamwork • Communication • Problem Solving • Adaptability • Time Management • Attention to Detail • Organisation • Critical Thinking • Continuous Learning • Technical Documentation

EDUCATION

Master of Information Technology (Software Engineering) **Mar 2025 - Present**

Charles Darwin University - Danala Campus, Australia

Bachelor of Science in Information Technology **2015 - 2019**

Cavite State University - Main Campus, Philippines
